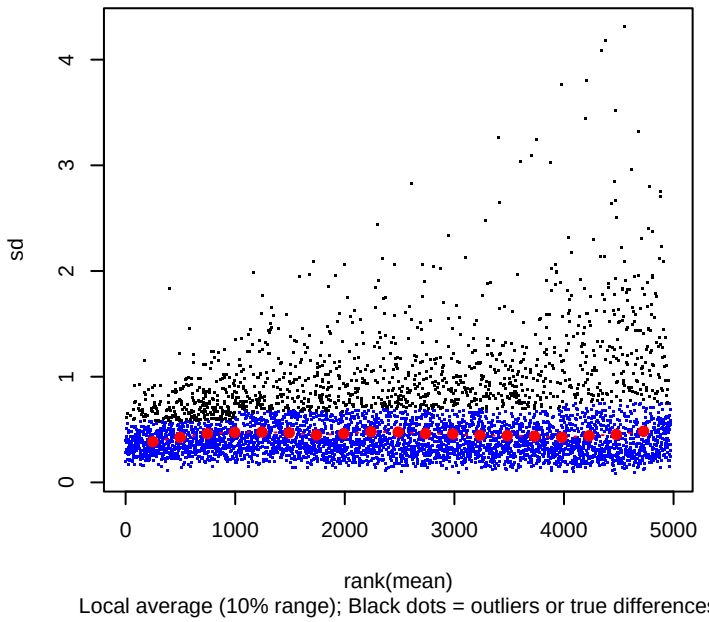
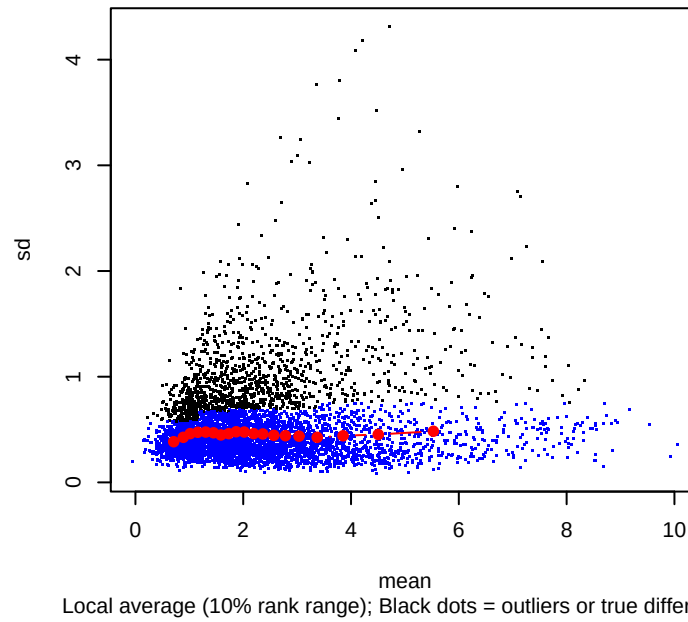
5a. Data after variance stabilizing normalization (vsn)



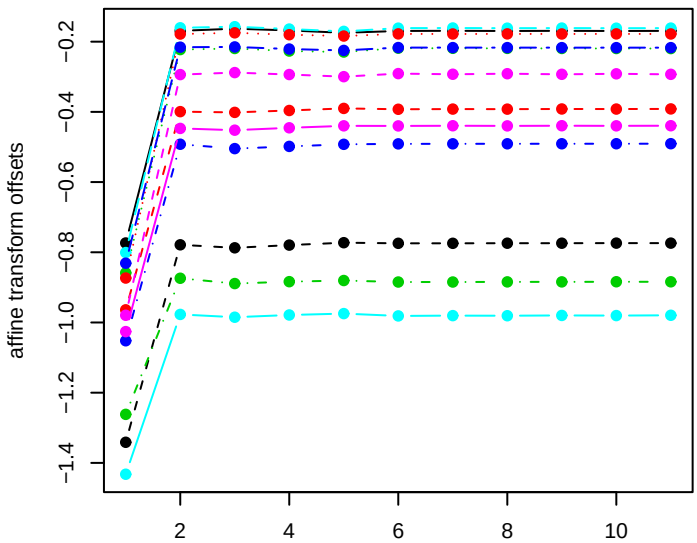
Local average (10% range); Black dots = outliers or true differences

5b. Data after variance stabilizing normalization (vsn)



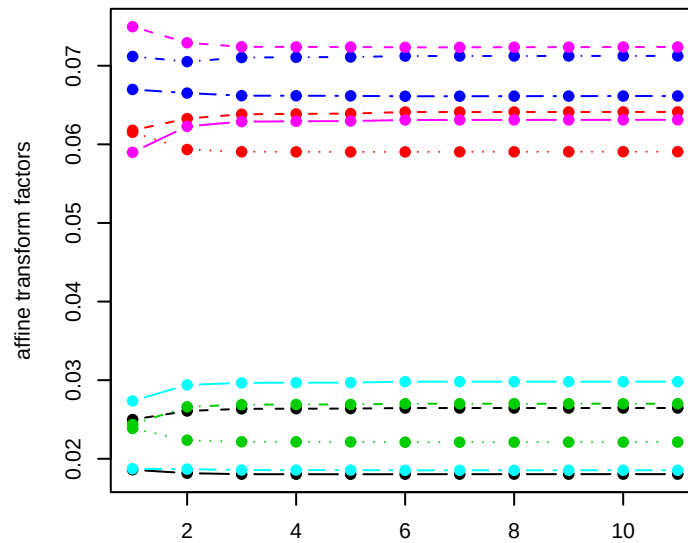
Local average (10% rank range); Black dots = outliers or true differences

6a. Convergence of vsn robust fit



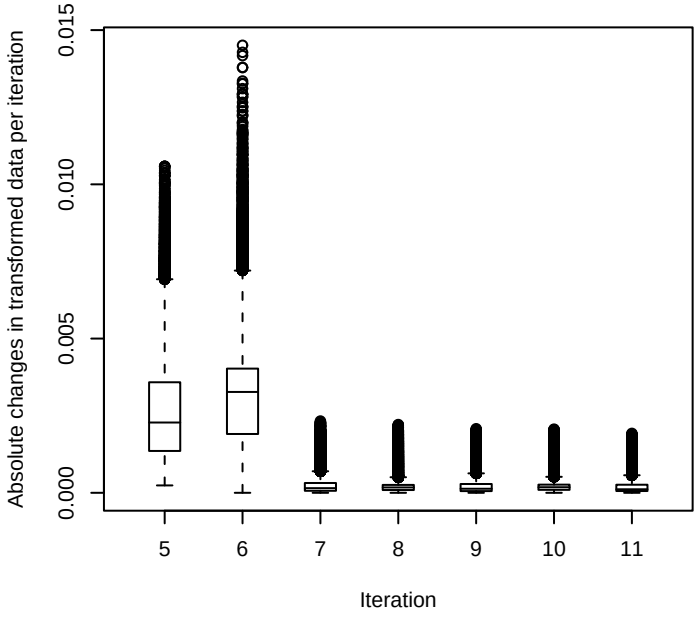
Filled circles = channel 1; Open circles = channel 2

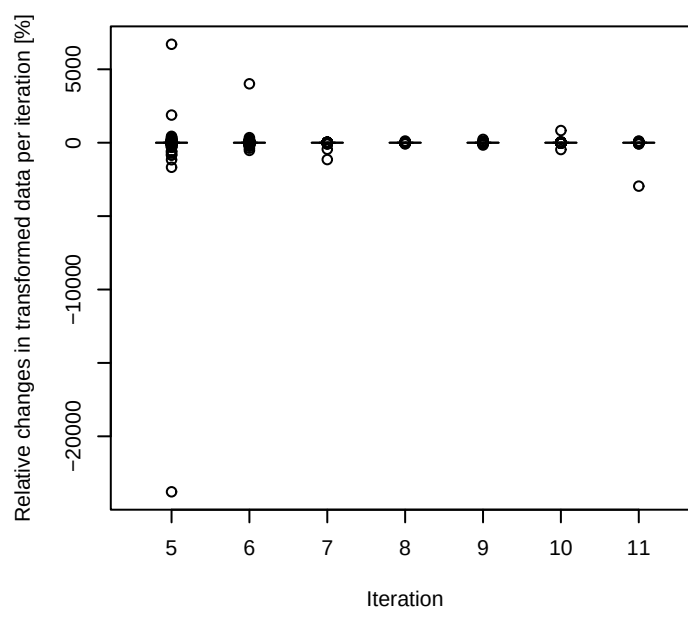
6b. Convergence of vsn robust fit



Filled circles = channel 1; Open circles = channel 2

6c. Convergence of vsn robust fit





6d. Convergence of vsn robust fit
