

**1a. Data before rescaling/normalization**

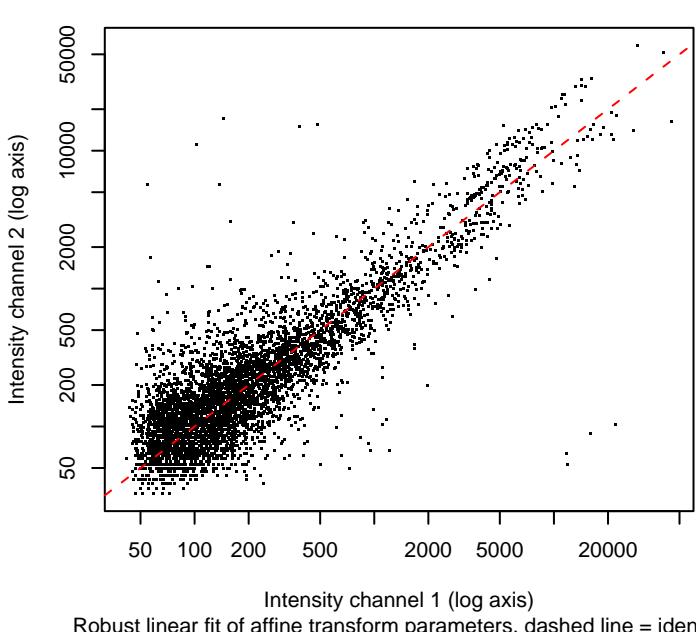

**1b. Data before rescaling/normalization**

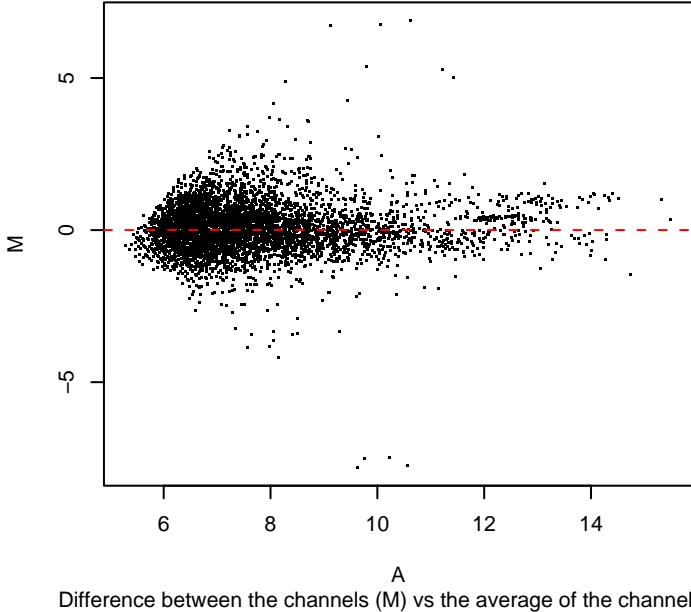

**2a. Data after affine transform normalization**

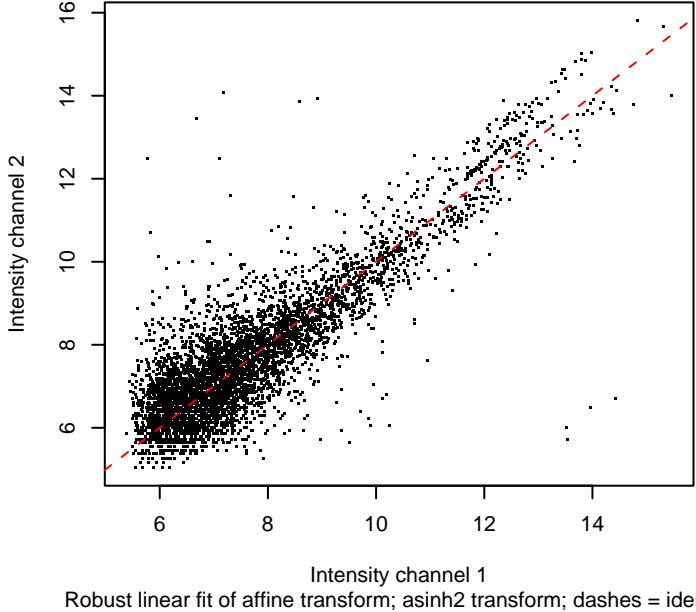

**2b. Data after affine transform normalization**

**4. Data after variance stabilizing normalization (vsn)**

**3. Data after variance stabilizing normalization (vsn)**

Difference between the channels ( $M$ ) vs the average of the channels ( $A$ )

Robust linear fit of affine transform; asinh2 transform; dashes = identity
